An eagle breaks the silence And overflies the field My eyes will try to follow Till it vanishes away Like candles in the darkness We fight against the wind Devotion to your idols Soon will overthrow the king Out of order Taming borders Tearing down the fences On and on and after all The century has gone Racism jumble Turbulence My eyes believe we have gone to the end Ordinary Earth Sailing through the space Population alienation Losing all affection Calling on to heaven's hope To watch for my protection Out of luck Potential stuck Remote controlled By the T.V. again Carries human souls Lead us the journey of our fate So come millennium sun Won't you show us the way Future's begun So words from my mouth come Whispering for your return Pictures a sunset on the lake Mirrors of crystal your portrait Walking on this field while I wait So come millennium sun Won't you show us the way Future's begun So words come from my mouth Whispering for your return Show us the future's began Burning millennium sun
