

## Sprouts of Time

Angra

I lay my eyes in the past  
From the first day to the last  
Several things we had to learn  
Countless mistakes from times of yore  
Now we restart, we recreate  
Your present is your fate  
Don't turn your backs on mankind!  
Only yourselves you wanna save  
Ignorance burns just like a fire  
Consuming people on its flame  
Fellow creatures, so wonderful!  
So different and so grand  
Sprouts of time  
The roots evolving  
The seeds for the future  
were scattered yesterday  
Tomorrow's harvest field we plant  
today  
Your crown will ever last  
The tall trees of life  
(Life experience)  
Break your shell reach the light!  
(Mind and sould)  
Find your path to the skies  
(Will come around on a thunder sound)  
Raging with power and fury the new  
born world  
Sprouts of time  
The roots evolving  
The seeds from the past  
branching out  
Growing forever  
Hands on heart  
Embrace each other  
The dances, the faces, the smiles  
Behind the past  
New seasons bring the chance  
To start again  
Tall trees will ever last  
The circles of life
