

Deity Of Disgust

Angtoria

Glass eyes shall stare, when tempted by
A smile for the unknown, headrush!
Like the river wild
I see in your eyes
A reflection of
Something forbidden
Unleashed by a lie you inspired

I live in your shadow Your secret
Betrayal I clutch in my hand
Deception was not your intention
Deity of disgust

I was destined to take plague to my grave
Dug by my self-pity
Captured by the thrill of my pray
Young skin so addictive
Falling faster than rain
Canrt control this craving
Not that I, feel the need to

I live in your shadow Your secret
Betrayal I clutch in my hand
Deception was not your intention
Deity of disgust
