

Master Of The Universe

ANGUS McSIX

I have drowned in the fires
But haven't lost my soul
Fallen hero, a legend now I'm reborn

Glory left my hammer
But now I wield the sword
Of primal power, created once by the Gods

My body was dead, I couldn't have been deader
But I came right back one better!

Woooooah, oooooh!
And my light will shine forever
It all has come together
Woooooah, oooooh!
I'm the Master of the Universe

Woooooah, oooooh!
And my green has turned to gold
New forces will unfold
Woooooah, oooooh!
Hail the Master of the Universe

Evil ruled in the future
But now I'll change the past
Darkest darkness, your end is nearing at last

I will save all the people
Of every galaxy
Mighty hero, back in real reality

I got stabbed through my old armour made of leather
But guess who's back one better!

Woooooah, oooooh!
And my light will shine forever
It all has come together
Woooooah, oooooh!
I'm the Master of the Universe

Woooooah, oooooh!
And my green has turned to gold
New forces will unfold
Woooooah, oooooh!
Hail the Master of the Universe

Woooooah, oooooh!
And my light will shine forever
It all has come together
Woooooah, oooooh!
I'm the Master of the Universe

Woooooah, oooooh!
And my light will shine forever
It all has come together
Woooooah, oooooh!
I'm the Master of the Universe

Woooooah, oooooh!
And my green has turned to gold
New features will unfold
Woooooah, oooooh!
Hail the Master of the Universe
Of the universe!
