

Ride To Hell

ANGUS McSIX

Faster than the fiery winds
Of the underworld we ride
Descending deeper down towards Hell's core

The ghouls and nightmares lurking here
All creatures I made die
Flee from us, afraid to die once more

Let's go down!

Ride on! Ride on!
Star key, bring me back to life!
Ride on! Ride on!
Make my questing now revive!

I'm gonna ride, ride, ride
I'm gonna ride through the bright,
bloodred moonlit sky
I'm gonna ride to hell
To fight and break the spell,
of death, come join me on my
Ride, ride, ride
I'm gonna ride through the bright,
bloodred moonlit sky
I'm gonna ride to hell
To fight and break the spell,
of death, come join me on my ride

Willed to facing evil king
I'm entering the gates
But only demon skull awaiting me

The Dark Lord struck by mighty sword
With hilt removed thenceforth
Reconnect now blade and astral key

Pull it out!

Ride on! Ride on!
Ancient weapon glows again
Ride on! Ride on!
Now the darkness will be slain

I'm gonna ride, ride, ride
I'm gonna ride through the bright,
bloodred moonlit sky
I'm gonna ride to hell
To fight and break the spell,
of death, come join me on my
Ride, ride, ride
I'm gonna ride through the bright,
bloodred moonlit sky
I'm gonna ride to hell
To fight and break the spell,
of death, come join me on my ride

With magic steel and laser light
