

Contagious

Ani DiFranco

They go low, you go high
You bring more than your own supply
That dirty game you don't play
That shit's contagious, you stay away
That shit's contagious, you stay away

They go low, you go high

Not taking polls, not doing math
Not trying to steamroll a path
Not trying to calculate, manipulate
The future or the past
That shit's contagious, just stay away
That shit's contagious, just stay away

They go low, you go high

I'm not below you, I'm not above
Yeah in the center, I put love
Yes in our being, we are the same
But are we playing that dirty game?
That shit's contagious, you stay away

They go low, you go high
