

Disorders

Ani DiFranco

One disorder
Or another
It's a lot to process
So much for due process

Can I take your order?
Can I take how you ignored her?
Can I even pique your interest?
Buy me time to get dressed

If you know, then you know
How your grip can just let go
How the meaning can get missed
Once you know how it feels
To not exist

I have entered into
Negotiations
With the blissful abyss
Of disassociation
And all that it implies
While you weaponize
Your ejaculations

One fire
Or another
It's a lot to process
I just need an egress
Your importance
Has reached global proportions
It's a lot to process
I guess this is my process

I have entered into
Negotiations
With the blissful abyss
Of disassociation
And all that it implies
While you weaponize...

I don't give a fuck what you think you know
Look at you, you don't know
I don't give a fuck what you think you know
Look at you, you don't know
I don't give a fuck what you think you know
Look at you
I don't give a fuck what you think you know
Look at you, you don't know
I don't give a fuck what you think you know
Look at you...
