I study the conversation  
Like a map  
'cause I know there is strength  
In the differences between us  
And I know there is comfort  
Where we overlap

Come here  
Stand in front of the light  
Stand still  
So I can see your silhouette  
I hope  
You have got all night  
'cause I'm not done looking,  
No, I'm not done looking yet

Each one of us  
Wants a piece of the action  
You can hear it in what we say  
You can see it in what we do  
We negotiate with chaos  
For some sense of satisfaction  
If you won't give it to me  
At least give me a better view

Come here  
Stand in front of the light  
Stand still  
So I can see your silhouette  
I hope  
You have got all night  
'cause I'm not done looking  
No,  
I'm not done looking yet

I build each one of my songs  
Out of glass  
So you can see me inside of them  
I suppose  
Or you could just leave the image of me  
In the background, I guess  
And watch your own reflection superimposed

I build each one of my days out of hope  
And I give that hope your name  
And I don't know you that well  
But it don't take much to tell  
Either you don't have the balls  
Or you don't feel the same

Come here  
Stand in front of the light  
Stand still  
So I can see your silhouette  
I hope

You have got all night  
'cause I'm not done looking  
No, I'm not done looking yet
