

Boasting

Anilyst

Lately I've been boasting
Lately I've been boasting
They know, you know, we know, yeah, BRAP BRAP BRAP!

They'd put me down but I came up
Look it now cause I'm famous
I took the crown from you lame fucks
And left you clowns in the dang dust
Stay surrounded by strangers
That'll ride around with they A's up
Haters try an imitate us
Cause my ways got em anxious
Fuck with girls who never gave fucks
Fly face, make up, nice waist that'll make up for her A cups, so I may bust
Crazy mayn how this game just
Relates to those of all ages
And once they see you getting major
It changes people to say stuff like
"A wussup, wanna blaze a blunt?"
"Let's drink, you wanna get faded drunk?"
"Let's eat, you wanna take me for lunch and then pay for stuff so I can take
your bucks"
Stay far cause ya'll lousy
Snakes crawling all around me
Just made a song for my county
Hear how great it's sounding in my Audi
Lyst bringing out dope rides
My bitch swinging on both sides
Quit thinking with your hopes high
Cause you know I'll make you nosedive
X-rated with my low low
Sex taping off a GoPro
Used to tell fakes I would go pro
They would show hate, now they sho know
Rock out like a rock show
My styles' so macho
A dropout, but I drop doe
With a lot of snow in my nostrils
Riding low in my impala though
Tryna roll somewhere tropical
Cause I'm on the road getting often close
Watch me roam across the coast

Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
Lately I've been boasting

Success, I'm destined
Blunts fresh as a freshman
Rough sex like were wrestling, make her undress what she's dressed in
Me an her and her best friend
She prefers it no less than
A freak for sure an no question

Ans she's determined, no resting
High heels, flashy bitch
Nice build, with ass an tits
Likes feeling on my magic stick
Life feels like an action flick
Five stars they do feel us
Ride off with my true killers
Die hard like I'm Bruce Willis
You'z a lie dog that's true feelings
A came to take over
With an AK on my shoulder
Got brains mayn like I'm yoda
But I will bang bang like sosa
Stay hip to my latest
Face it cause you basic
They diss but they praise this
Cause they play Lyst on they playlist
Fresno treats a kid well, the best smoke that we inhale
The rest know that you've been failed, you ain't Big L, that's a Big L!
I came here to come with no pity, so play with your dollars and penny's
I'm making it rain all these hundreds no fifty's
Then taking your lady to cum on her titties, ha!

Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
Lately I've been boasting
