

# Game Looking

Anilyst

If you's a star I'm a supernova boy  
I'm that new kid that can nuke it and destroy  
Moving quick as Floyd and I'm proving that this music ain't no toy  
Getting ruthless as a shooter from Detroit  
I really got this whole joint jumping like a circus  
See the way the boy started buzzing on the circuit  
So I really got no choice cousin but to fucking murk it  
You could hear it in my voice, it's my one and only purpose  
Money's coming off these verses and it's hard to not be splurging  
All these honeys start emerging cause I'm always sharp as surgeons  
Call me papi, mami take a hop on my serpent  
If you're nervous after this you gon' be certain it was worth it  
Cause I'll be on it all day, I be the one they call A  
But once we gets the freaking, girl I'm Rico fucking Suave  
Meet you by the lobby lead you up where I stay  
And we gon fuck till people start to here us in the hallways  
He is so defiant, and he's alone and in need of no alliance  
And the weed he rolls will leave you zoned in silence  
Dude defines fly-ness, cause I choose to rhyme timeless  
I got you glued by the eyelids  
Cause

I've got the game looking  
Now my name bubbling  
Got my pay doubling  
I've got the game looking  
On my own A to Z  
Great is what they rating me  
I've got (got) the game (game) looking  
Got my name bubbling  
With my pay doubling  
I've got (got) the game (game) looking  
So tell them take pic of me  
Before they got to pay a fee

Who can feel their face from the openness, cause the dude is skilled for day  
s  
Getting stupid lit off super silver haze  
Soon to steal the stage and it's funny they assumed this was a phase  
Now it's proven that this music's in my veins  
Plus I've got the game that can maneuver through a Rubik's cube or maze  
And amaze any dude who loses faith  
My mood is off the chain, I'ma dude who suffered pain  
Now I'm hot enough to where I'll make a room fill up with flames  
And the fumes that it contains, are suited just for chewing threw your brain  
Leave you too decayed to move away remains  
Who could say the same? got them rooting for my name  
And there's many dudes a day that try to duplicate my ways  
Cause I

I've got the game looking  
Now my name bubbling  
Got my pay doubling  
I've got the game looking  
On my own A to Z  
Great is what they rating me  
I've got (got) the game (game) looking

Yeah look  
I've risen and grown, the higher vision has shown  
How I am lyrically prone to have minds literally blown  
I ain't typical bro, scientist with the flow  
Psychiatrist on my phone while the fliest chick gives me dome  
Can't can't you see that the fact is when you're sleeping I'm grinding  
Most of you cats are average and can't compete with a lion  
Living life to establish a legacy like the Mayans  
My physical height is average but mentally I'm a giant  
Bars like a compilation my job and my occupation  
Require the type of brain for unlocking a combination  
Whether it's constant hate or it's props that you're all displaying  
As long you got my name as the topic of conversation then I'm good

I've got the game looking  
Now my name bubbling  
Got my pay doubling  
I've got the game looking  
On my own A to Z  
Great is what they rating me
