Anilyst

Another shot glass down, how does that sound?  
How bout another round?  
Where the blunts at? pass them around  
New faces all day  
You say what they all say  
We pray through them hard days  
Feel the change in my heart rate  
Club packed, and I love that  
Another glass I'ma chug fast  
Another ass wanting one dance  
Light somethin I can puff pass  
Lifes somethin like a tough task  
And I ain't done like a rough draft  
Just a young man barely getting started  
I'ma guarantee I be the hardest  
Guarantee I'll think it if you thought it  
Got them heated like its august  
Not receiving any losses  
Cause I'm seeing through darkness  
Hold up lemme strike my pose  
Toast up to the life I chose  
Sometimes it's like a sci-fi show  
Guess it is what it seems  
I'm that kid that'll live for his dreams  
Liquor and bitches became my routine  
Now this my

New day, same drama  
Dudes lame needa watch they karma  
Move away cause I gotta make commas  
There's groupies so I gotta take condoms  
They tryna minajatwa us  
Me plus all nine of my partners  
We just wanna fly to the Bahamas  
Good weed, plus women  
This just the scene that we live in  
God please forgive me for sinning  
We just don't see any limits  
This life is forever different  
This guys' forever driven  
I can't find an F I'm giving  
See I stay cray cause the game changed me  
Ain't the same but don't blame baby  
Great pays' what I make lately  
And I say things that make legs shakey  
And I don't chase fame I let the fame chase me!

What a shame how shit do change  
They say that the kid too vain  
You can tell that he been through pain  
No love for the tricks I  
Got soldiers on this side  
You wish you was this fly  
That's why this my
