

Substance

Anilyst

See I come from a city by the name of Fresno, California
And one major thing this city has taught me
Is to never give a fuck...

Better, fasten up or catch the bus
And flee fast cause you cats ain't fast enough
You lack the guts so please stop acting tough
And pass the dutch or we finna have you crushed
Dream phat, see plaques saying platinum plus
Cause he the baddest, see the madness acting up
I be the man like I'm peter pan so don't battle with us
I keep advancing these cats can never adjust, ahh
Keep switching it we keep diminishing weak geeks with venom That depletes yo
ur ligaments
We competitive being weak is a negative
Wanna beef? then you better think of a better diss
Interactive, I consider you practice I can shit on you bastards
Enema's in your asses
Think bad like I was tripping on acid
Breathe gas to turn a bitch into ashes
Kind of literal got the soul of a general
Not considered political but I like to get ridiculed
Ya'll minimal, sort of resemble minerals
Armageddon when I be sending subliminals
Flow hotter, so I holler for more dollars
Low riders and hoes I've got a whole lotta
Kid is wicked I'm finna get it don't get offended
If you're starting that shit up with us I'm finna end it
Dropping them down clocking a clown conquer your town now Cause I'm all for
the crown
Raw with the sound leave your damn jaws on the ground
Ya'll finna bounce till you smash walls in your house
We don't need drama, we don' seen a lot of
Friends turn to enemies this should be a saga
Literally a rider, he be a survivor
He is a hyena to these itty bitty spiders
Made it happen, some will say I be snapping, simulated for Rapping, winning
made it a habit
Kill the game in a way they cannot imagine
Entertainment the game I play isn't madden
Moving in I'll be checking you like a bulletin
But tell me is it cool again to be a hooligan?
Assuming I be bullying but only when the school is in cause Homie I be schoo
ling them
So what you think I'm doing then?
And they see with this flow, everything I seem to spits' so crystal clear
Better not beef with this bro you will see your knees and hips go disappear
The chit chatter is getting louder it doesn't matter cause I never happened
to give a damn what you think about us
You little cowards are bitter because I'm getting badder
Jibber jabber about us but I be feeling flattered
Quick but I spit stuff with substance
This is just the Lyst introduction
Walked in then lit this production
Ya'll sick but this is disgusting
Did it justice I'ma hit you with muskets
Like I mentioned on ruckus you can never come touch this

Yes I'm vigilant cause I'm living corrupted
Spitting limitless shit'll leave you in crutches
I got the torch lit, I'm high up now like a forklift
Pipe any gal looking gorgeous, girl I've been around like an orbit is
Type of sound to make you forfeit
I'm, grinding till I'm on the Forbes list
All I'm feeling are endorphins, I'm a villain I adore sins
May seem amazing the way we making money with the way we say things
Pay me with late fees to make peace or I may be taking your savings
Asshole that'll rap his ass off
Spazz like a crack headed cat on bath salts
Get slashed with a thousand hack saws
And get your head slammed on asphalt, that's all
Heart racing, I'm chasing the paper you're basically pacing and wasting
My time, cause you say you gon face me
Please come try cause I'm anxiously waiting
Metaphor lord and I'm headed more towards
Getting better like a veteran up in a world war
This is what I'm known for
You can never get it cause your rhetoric is so poor, oh lord
Tracks are killer mayn, and I stay fresh like I'm wrapped in cellophane
Still the same cat but I'm back with bigger thangs
Stacking bigger change, "raps realest" stays my middle name
I wrote it the kid is known as impossible
And they know this the opposite of a gospel
Got you feeling horrified and awful
Hostile like a 45 is under your nostrils
