

## Suddenly

Anilyst

Yes I motivate, but this pain can't be smoked away  
I say stuff I ain't supposed to say, I stay stuck with a poker face  
Caught up in this game but its no charades, emotions raise  
Feeling like I overcame the hopeless days, I'm like an ocean wave tha  
t flows for days  
I do not associate with frozen lakes  
I've faced a whole lot of road blocks, but I don't stop I'm more like  
a robot  
I've been winning an killing it, finger on the holster  
Any minute I'll get it, the kid is getting closer  
So hot but I told ya'll hoes don't talk if you don't want smoke  
Cause I've got more than a stove top, with snow dropping on top of it  
though, cause I'm not gonna fold

Suddenly, the clouds have opened up, and I'm being seen in all of my  
glory  
Suddenly, the clouds have opened up, and I'm being seen in all of my  
glory

Never slacking, the passion could be felt  
In fact every fraction of me's real  
Fast on a fucking track, fasten your seat belts  
Gassing your fuckin ass, now I need a refill  
I could sleep you like a zzzquil, then defeat you while I wreak hell  
and delete you like an email  
That's a preview of the details, I'm a G with a GQ looking female  
Mad cause they cannot see the flow  
If I was an animal it better be a goat  
Seff is like a centipede that steadily will grow  
Cause every single bit of every centimeter shows  
Or should I be a ghost, cause I got the energy that shouldn't be appr  
oached  
To my team I'm the coach  
More then a leader I'm dreaming the most when I'm woke

Suddenly, the clouds have opened up, and I'm being seen in all of my  
glory  
Suddenly, the clouds have opened up, and I'm being seen in all of my  
glory

Fuck is you blabbing at? this is just me in my natural habitat  
Planning on blasting your back in half just to relax and then laugh a  
t that, you cannot manage to bandage that  
Catching you lacking then stabbing your adam's ap  
I'll stick a dagger like right where your bladders at  
Abracadabra cause I'm finna vanish your cash and your cadillac that's  
a fact how bout that?  
That's a proposition, you better stop and listen  
You can't knock my vision, I got pac ambition  
They want me locked in prison, because of optimism  
I gotta kill it cause the minutes in my watch are ticking  
I love the feeling when I'm killing off the competition

Cause I been sitting on top of them shitting like a flock of pigeons  
They wanna stop my mission because I'm ripping every composition

Suddenly, the clouds have opened up, and I'm being seen in all of my  
glory

Suddenly, the clouds have opened up, and I'm being seen in all of my  
glory

Just believe, and work for it, and watch what'll happen. Stop the wis  
hing, stop the bitching, start the mission. Yeah! [\*laughs\*]
