Snakes snakes
Ya'll just a bunch of, snakes snakes
I ain't fucking with you, fakes fakes
Stay the fuck up out my, face face
Ya'll just a bunch of, snakes snakes
I ain't fucking with you, fakes fakes
Stay the fuck up out my, face face

Born a freak now I'm off the leash so the flow is lethal
Smokin keef while I'm snortin kilos in Puerto Rico
Roll with people who know the street code an know the lingo
This sort of thing can destroy an weaken your phony ego
I keep it real while these people keep it placebo
So before you beef with me just know we gon' beat you like deebo
So, keep your semi close, you better reload
We gon' keep the heat coming like wherever we go
It's truly shocking how this dude be talking
Life is like a movie I got all the groupies watching, if she boujee I'ma take her Gucci shopping
Have her lick the tootsie pop then get the pussy popping
Feeling hype so I might just go grip a knife an then light you with liquid nitrogen life is a flip of dice with him

A survivor who's mind is just wired psycho and tribal because he rides with a rifle for those who rival him
The kid is honest I bought a brick of the finest, took a tiny little snippet an sniffed it inside my sinus
Can't deny this, a writer with tendentious
Stick a pen in your appendix then write a sentence inside it
They could tell that we really been through hell
I got homies doing life an they can't even get no bail
I know people who
Would love to see me really take an L
But they never will so they can suck my D until it swells
Cigar spliffin' this gift is so God given
Not giving a fuck about anyone like we mob living
Part driven the other part is ambition
I put my heart in this mission and never altered the vision

I'm quick to get you then twist your wrist like this is jiu-jitsu

Pistol whip you then kick your ribs till I rip your tissues
You wish I'd diss you but listen bitch I got bigger issues
I've been official so dissing you isn't beneficial

Creeping an keeping it venomous that is the key to defeating my nemesis
I be the reaper to sneak in your residence
I got a feeling that I'ma be one of the reasons to weaken your ligaments
Like you've been drinking tequila with sedatives
You know my method is beating you till you're not breathing then cleaning and leaving no evidence
I be defeating my enemy
Never let nobody weaken my energy
Killin it they cannot seem to get rid of me
Check out the way that the people are feeling me
Hate it or love it they see the ability
They cannot fuck with the speed and agility

Keep it a hundred I keep it infinity
We finna run up and leave you in misery

Snakes, snakes

Ya'll just a bunch of, snakes snakes
