

## Try It

Anilyst

Got a thick bitch I can make crawl  
I got a big dick she can take all  
Getting lipstick on my dang balls  
Been a pimp since I was waist tall  
If your bitch dips I'm the main cause  
I'm the shit bitch you're just stained drawers  
Get em' pissed quick like a prank call  
Make his wig split, have his brains fall  
To ball like us you should learn to live this  
Cause dawgs like us be concerned with business  
Get all hyped up off the verse, I'm gifted  
All white cup with the purple liquid  
Get off my nuts cause your girl done licked it  
I'm all wifed up, I prefer my mistress  
Get sawed like dust if you dur to diss this  
All white tux as your hearse is lifted  
Yeah, I'm a savage till death  
Damage and wreck any faggot that tests  
Demand the respect with my hand on my TAC  
Gets your head in your chest you should plan to protect  
Yeah, homie face the wrath  
Road to success Imma take the path  
Take your girl out for drinks, make her pay the tab  
Laugh as I walk away and raise my glass and say

Hold your cups up and riot  
Ho can jump up and ride it  
Only time that I'm silenced  
When I roll my blunt up and light it  
Mind's as high as a pilot  
Flying high in my private  
No denying my violence  
Only sound around me is silence so

Load that gun and try  
Load that gun and try  
Load that gun and try  
Load that gun and try  
Load that gun and try  
Load that gun and try

No denying my violence  
Only sound around me is silence so

Imma live fast while you die slow  
Get cash while you lie broke  
Grab your chick's ass with my eyes closed  
Use a dishrag as my blind fold  
I'm the main act you're a side show  
If your game's fat then I'm lipo  
Make your frame crack till your spine's broke  
Hang your ass off that light pole  
Wanna be elite? Test my music  
Imma kill a beat while the rest abuse it  
Never treat it less than an execution  
Peddle to your death with electrocution  
Here Imma rep like I rep the Houston

Yeah keep it fresh while the rest pollution  
Haters wanna test, got the best solution  
Only thing is death in my resolution  
So I suggest that you hide  
Gun on my waist but it rest on my side  
Cause once its awake you'll be destined to die  
Feeling nothing but pain when your flesh will divide  
I protect what's inside  
Bitches these days be protectin' their pride  
The only thing she been projectin' is lies  
Said she fucked five when she's fucked the whole tribe

Hold your cups up and riot  
Ho can jump up and ride it  
Only time that I'm silenced  
When I roll my blunt up and light it  
Mind's as high as a pilot  
Flying high in my private  
No denying my violence  
Only sound around me is silence so

Load that gun and try  
Load that gun and try  
Load that gun and try  
Load that gun and try  
Load that gun and try  
Load that gun and try

No denying my violence  
Only sound around me is silence so
