Anilyst

This, is my vibe
Taking some hits, hitting a vibe
Sip and I sip, hitting a vibe
Living like this, and I don't know why
But, this, is my vibe
I feel like the realest one, realest one, alive
But this, is my vibe, I feel like the realest one, the realest one, alive li

Sometimes I'm social, other times I'm a no show
Butterflies in my stomach I'm just hoping I don't go loco
No I do not have the time too, fuck with you I'm on the grind boo
Moneys all that's on my mind, so, if you ain't looking like a dime, move
Bitches love me for my foul mouth
Got these bitches going down south
Bootys bouncing like a bounce house
All around me like surround sound
See the way that I do me
Winning games like I'm 23
Got this groupie in a two piece
Bet my chain could make a room freeze
Mixed trone with ice tea
Sipping on it while I light weed
Get blown till my mind flies through the night sky's up in light speed
Switch lanes in that sick drop
Spit game make her drip drop
Pull up in a range with stains of her lip gloss on the kids cock
Hustla I'm too smooth
Doubled up all my loot boo
An that's because I could choose too
This ain't no dude that you're used too
I came in to strike pain
To your mind like a migraine
Don't click right with your type mayn
My cliques tight as a bike lane

This, is my vibe
Taking some hits, hitting a vibe
Sip and I sip, hitting a vibe
Living like this, and I don't know why
But, this, is my vibe
I feel like the realest one, realest one, alive
But this, is my vibe, I feel like the realest one, the realest one, alive li

You'z a bitch I'm sensing it
Stupid and you're sensetive
Try to put some sense in this
Or you just might get sent a diss
Do not mention censorship
Who you thought you messin with?
You is not my nemesis
Cause you can't top this excellence
Just because you're gassed up
Does not mean you'll pass us
I'm just preaching facts cause
You just seem to act thug

Leave you with your back cut
Leaking like a flash flood
Need some weed just ask us
Cause we got the access

I'm the plug and the fiend
Money or weed I'm in love with the green
An I run my regime
Spitting so much that I'm flooding the scene
Crushing your team
Fuckign with us? what the fuck do you mean?
You must be asleep is you stuck in your dreams?
Get the fuck up then come up with a scheme
Bad to the bone
Stamina hoe how I managed to go
Get it some more now I'm back on the road
Swag on a whole nother avenue though
Status is so unimagivable
Savage my flow has established a tone
Damage you bro make you vanish and go
You ain't a man you'z a vaginal hole

This, is my vibe
Taking some hits, hitting a vibe
Sip and I sip, hitting a vibe
Living like this, and I don't know why
But, this, is my vibe
I feel like the realest one, realest one, alive
