Animal Collective

It's best this mess is part of the plan The truth is moving under the ground

You're sure the steering wheel Is resting in your hands

Tough to say

You think success belongs to the bank You take directions into the skin

An ancient motor revving up To keep it living on

Strings tied to the hands Hands upon a mouth

Sneaky ways

The path is written before the act A mode of growing seems like a choice

It feels like progress
Is a product of a hidden game

What obeys

You measure hits by stuff in the house It's more sincerely smiles on the face

The instinct leads you if you do Or if you don't want

Tackle on a neck
Trapped within the ring

Tough to say What obeys Sneaky ways Sneaky ways
