Bright Lights

Animal Kingdom

Please, don't leave me here Cause I might not make it Stop. Stop confusing things With your twisted thinking Wait, at the waters edge I will meet you there

World it trembles as it starts to spin Sky it cracked and now its falling in There were bright lights, there were dollar signs Ties that bind you

And we'll sail toward the light Through the stars, through the night And we'll sail toward the light Through the stars, through the night

Feet may stumble if you leave the road And theres no compass thatll guide you home But there were bright lights, there were dollar \$igns Ties that bind you

And we'll sail toward the light
Through the stars, through the night
And we'll sail toward the light
Through the stars, through the night
