

Get Away With It

Animal Kingdom

Any place, any time, you could be mine
Any night, any day, anything we say.
Every day, we can run away with that
I can get away with it
We could just get away.
You can get away with that,
I can get away with it
If they all look away.
Any place, any time, anything we like
Any planes, any cars, anything we want
Every day, we can run away with that
I can get away with it
We could just get away.
You can get away with that,
I can get away with it
If they all look away.
Only if that they look away.
So, it's looking at this hand by
Not at this one
So, it's looking at this hand by
Not at we've done
You can get away with that,
I can get away with it
If they all look away.
Only if they look away.
