

Silence Summons

Animal Kingdom

I wonder if I sing this song to you
Frightened that you'd think I'm just a fool
I hope that you don't mind
I'm hypnotized, have to speak my mind

There's nothing I can do
But sing this lonely tune
Somehow silence summons you
There's nothing I can do
But sing this lonely tune,
This lonely tune
It seems that somehow silence summons you

And what if this just don't get through to you
What if I've done nothing but intrude
Dress it up in rhyme
Hypnotized, have to speak my mind

There's nothing I can do
But sing this lonely tune
Somehow silence summons you
There's nothing I can do
But sing this lonely tune,
This lonely tune
It seems that somehow silence summons you

Don't feel down
Don't feel down
Don't feel down
I know that I should but I
Don't feel down
I know that I should but I
Don't feel down
Don't feel down

And if I could get you off my mind
Things would be better
If I could get you off my mind
