Anime

Hello again
I know it has to end but when?
The harder we try the further we fall
your head against my wall.
So one day it will break.
Ourselves It's getting near
I thought the light is not what I fear.
If I don't move now will it disappear?
You walk away from here with nothing left to break.
And when all the rusty cages burn away.

Why is it me?
Why is it me who stays?
And when all the rusty cages burn away.
Why is it me?
Why is it me who stays?
It's getting clear I thought the light is not what I fear.

If I stand still now will it disappear?
I walk away from here
with nothing left to break in ourselves.
So what's to know
Don't want no other place to go.
We could get further but it's just another call.
Your head against my wall
so one day we will break.
And when all the rusty cages burn away.

Why is it me?
Why is it me who stays?
And when all the rusty cages burn away.
Why is it me?
Why is it me who stays?
And when all the rusty cages burn away.
Why is it me?
Why is it me who stays?
And when all the rusty cages burn away.
Why is it me?
Why is it me who stays?
And when all the rusty cages burn away.
Why is it me?
Why is it me who stays?
And when all the rusty cages burn away.
Why is it me?
Why is it me who stays?
And when all the rusty cages burn away.
Why is it me?
Why is it me who stays?
