

## Need for speed

Anime

We're a dream  
We're a scream  
Most worthless shit you've ever seen  
Wasting time  
Nothing to blame  
We're nothing special, we're just the same  
Punks are dead  
We're rotting slow  
What makes you think that I don't know?  
Just speeding up  
And breaking glass  
Only to get my hands cut  
We can still move but we don't  
We don't get away  
We dance so we won't feel we're standing still  
Wearing black  
Dreams we broke  
Wake up, goths, the pain's in vogue  
Just make some noise  
And play it loud  
In times when silence can't be found  
Getting deep  
Love to waste  
And licking wounds just for the taste  
Out of fears  
Out of tears  
Out of years  
Passing years  
Hearts glowing  
We can still move but we don't  
We don't get away  
Oh maybe we will feel like living one day  
No one holds me back  
Not even your eyes  
Not even your eyes  
Not even you
