Scared of your wet hands
They always try to bind me
Scared of your wet eyes
So eager to see someone in me
Scared of your wet hands
It feels like rotten meat
Don't know what is right
But I know what I see

'Cos now I see the door is closed
Why you can't face what you always knew
I'm overdosed
Now it seems there's nothing good in you

You're the shadow of something
You'd like to be
Want me to tell you lies
But things have to be real
Won't you stop the game
Who do you think we are?
You're so dead
No I don't wanna go that far

'Cos now I see the door is closed
Why you can't face what you always knew
I'm overdosed
Now it seems there's nothing good in you

Yes, you really go down
Don't feel sorry for you
I ain't gonna drown
We could never make it through
Make it true
