

One Last Time

Anime

Once more the forest path is lit all the way down to the sea
Let`s get the treasure that we hid
I feel the storm over me
over me
I`ve been asleep
Please hang up
Are you gone?
I miss you all
I`m sorry for being away for so long
for so long
Nothing more to say
So take me away
Can we now forgive all for just one last time?
`Cos here we are, back again so let it out now
Wipe off the glass, let`s watch the Dawn
Your wound in mine
It`s enough now
Waht`s wrong with spaceships, lights and songs?

Can we now forgive all for just one last time?
`Cos here we are, back again so let it out now
Can we now forgive all for just one last time?
`Cos here we are, back again so let it out now
now
