

## Shine

Anime

Let's raise a war  
So we can save each other's lives  
Did we talk more before nothing happened?  
Now we're here in the state of nowhere  
The dead batteries  
And old incantations - do we still care?  
Sounding empty  
The Blind hear the Deaf see  
The crippled talk to me  
The Blind hear the Deaf see  
There's no time  
There's still time  
There's still time  
Can you cry?  
Once we cried  
Once we cried  
We can shine  
We will shine  
We will shine
