

## Shut It Down

### Animosity

Self soothing. Self improving, but not long till we start shooting.

Trained to be insane and punished for the same

Consider this a withdrawal of my own name

Where the fuck are we after two thousand years

What have we become?

Just some cavemen with guns, almost like life is a game and we do it just for fun

Disable your brain and make your move to insane

Just do your fucking job and you won't be the one to blame

We are always the ones to blame

I want to live free, no master no gods

Stay young until I die but somehow that's odd

A purposeful facade suppressing who we are... They ruined freedom so I am going to shut it down

Progress is less than gradual when we are still killing each other, seems like we will go a full circle end up back in trouble

I'm going to stand tall above the oppression above the hate

Stand firm on my own two feet, I know it's hard but I am going to carry my weight

Fuck ignorance, I'd rather be the invisible man and stay the fuck out of their master plan

Live my life, the way that I am supposed to as a human, not as a fucking drone

Every day, I look around and I see what we value and it boggles my mind

I can't participate any more

Shut it down!
