

Tremble

Animation

You were a little crazy
But you didn't even faze me
Your hand never touched my face

I wanted you so near me
But you didn't even hear me
For your mind was in a subconscious state

And I tremble
Every time I see you
I tremble, oh
I tremble
Every time you're near me
I tremble

The night your eyes met my eyes
My feelings were in disguise
These feelings I just could not explain

I felt the pound of pleasure
It's you that I would treasure
When you walk by me, baby I begin to faint

And I tremble
Every time I see you
I tremble, oh
I tremble
Every time you're near me
I tremble

You touched your face to my ear
I pushed my fingers through your hair
I grabbed the chance and I chose you

You fire up before me
And through the light I could say
You were the one who I really need

And I tremble
Every time I see you
I tremble, oh
I tremble
Every time you're near me
I tremble, oh

I tremble
Baby when you're near me
I tremble, oh
I tremble
Every time I see you
I tremble, whoa
