

## Serious

Anita Baker

Oh the last time I saw you  
You looked so good baby  
There was moonlight everywhere  
Oh and God only knows How I hated to leave you standing there  
You know I told you  
That I wanted to hold you  
But the moment was not right  
So I took off down the road  
For another lonely night  
Oh I wanna spend my life with you  
Baby tell me is that so wrong  
I don't ever want to say good night to you  
I wanna hold you all night long

Baby this is serious  
Baby, baby, this is serious  
This is serious for the two of us  
Serious

Oh all day long I keep thinkin' about you  
And I'm ready to give in  
'Cause I may never find anybody like you again  
You see nobody's ever made me want to  
Do what I'm 'bout to do  
Because I found everything  
And it's all wrapped up in you  
Oh I wanna spend my life with you  
Baby tell me is that so wrong  
I don't ever want to say goodbye to you  
I wanna hold you all night long  
I can hardly believe what I'm sayin'  
All my lifetime I've been prayin'  
To find somebody who's heart's not taken  
And I believe you're the one  
No I don't mean at all to upset you  
Honey I knew from the moment I met you  
If I could find a way to get you  
I'd have to fall in love  
Baby get serious  
Baby, baby, wanna be serious  
This is serious about the two of us  
Every night I want you by my side  
So I can love you  
Every night I want you by my side  
So I can love you  
'Cause forever's what it's gonna take to love you
