

You Can Do It

Anita Meyer

It's more than enough when you give me your music
Play it and I'll fly away
As long as you're around

I know that you, you can
You can do it
Because you showed me oh, so many times before
Oh yeah

You, you can
You can do it
Because you know your song
It's telling me so much more
That's when I say when you

Ask me to sing you a song
It doesn't matter what it's all about
I think that I'll get along
As long as you're around

I know that you, you can
You can do it
Because you showed me oh, so many times before
Oh yeah

You, you can
You can do it
Because you know your song
It's telling me so much more
Nana, nana, nana

You, you can
You can do it
Because you showed me so many times before
Oh yeah

You, you can
You can do it
Because you know your song
It's telling me so much more
So won't you tell me now

What do you want me to do?
Don't waste too long finding the sound
You know I'll do it for you
As long as you're around
