## I Won't Hurt You

## Anja Garbarek

I've lost all my pride I've been to paradise And I'll be out of sight With no one to guide me Torn apart by a fiery will inside me

I won't hurt you, I won't hurt you I won't hurt you, I won't hurt you

I'm an untouched diamond That's golden and brilliant Without illumination

Your mouth's a constellation The stars are in your eyes I take a spaceship And try and go and find you

I won't hurt you, I won't hurt you I won't hurt you, I won't hurt you

My pale blue star My rainbow How good it is to know you like me You strike me with your lightning Bring me down and bury me with ashes

I won't hurt you, I won't hurt you I won't hurt you, I won't hurt you
