

Hey

Honey you give me dragonflies  
When I see that number  
'Cause nothing hurt like summer  
2016  
You put the darkness in the light  
Boy you take me under  
You better run for cover  
Don't miss that feeling, I  
Had to find a new beginning  
Had a find a new best friend  
Had to make a new religion  
Put me back again  
Took a long, long time  
But (a long, long time) I learned  
How to, how to, how to, how to, how to  
How to love again

Don't fuck with my zen  
Don't fuck with my zen  
I don't wanna be your friend  
Don't fuck with my zen  
Can't fuck with my zen  
Can't fuck with my zen  
Keep that energy you in  
Can't fuck with my zen

You've got a problem  
Worse than the last one  
Nothing ever goes your way  
And baby everybody else to blame  
I used to indulge ya (indulge ya)  
Said I'd never judge ya (judge ya)  
But it's about time you knew  
How shitty it is to hang with you  
I can't, I can't, I can't, no way  
No way, no more, no more  
Your bad energy weighing  
On me like never before

Don't fuck with my zen  
Don't fuck with my zen  
I don't wanna be your friend  
Don't fuck with my zen  
Can't fuck with my zen  
Can't fuck with my zen  
Keep that energy you in  
Can't fuck with my zen

I don't wanna, I don't wanna  
I don't wanna be your friend  
(I can't be friends)  
Can't fuck with my zen  
(I can't be friends)  
Can't fuck with my zen  
Oh no, you can't

Can't fuck with my zen
