

All Night

Ann Marie

Baby, you been on my mind a lot lately
These days, I'm just thinking 'bout if maybe
We can go somewhere and you can taste me
Oh baby, taste me, make me your main course
Let me show you what to do, I can be your mentor
Eat me up, daddy, that's what this pussy made for
When we finish, boy, you gon' be yelling, "Encore"
Know you gon' want more

Legs up, pullin' on yo' dreads
Backshots while I'm screaming, "Yes"
Face telling me you're impressed
I'm about to fuck up your head
Yung Joc, boy, it's goin' down
She's so wet tonight, you might drown
Like Chris Brown, I'ma take you down
Baby, we about to be a while, goin'

All night
Eat me out
All night
For round for round
All night
I'ma make you drown
Daddy, I want you to dick me down
All night
Boy, I don't get tired
So pull it out and let's 69
Taste me, baby, daddy

This shit feels so good the way you got me
Cumming back to back, it's a tsunami
'Cause baby, I'm so wet just how you want me
Oh, baby, only you
Only you can get me in the mood
So baby, there's a meeting in my room
Told you all the freaky shit I'm gonna do
To you
And now my

Legs up, pullin' on yo' dreads
Backshots while I'm screaming, "Yes"
Face telling me you're impressed
I'm about to fuck up your head
Yung Joc, boy, it's goin' down
She's so wet tonight, you might drown
Like Chris Brown, I'ma take you down
Baby, we about to be a while, goin'

All night
Eat me out
All night
For round for round
All night
I'ma make you drown
Daddy, I want you to dick me down
All night

Boy, I don't get tired
So pull it out and let's 69
Taste me, baby
