

Feel Me

Ann Marie

The way we touch, can't get enough
I swear it feels like heaven
When we making love
Caressing my body, I can feel the rush
Boy you know just how I'm cumming
When it come to us
Fuck it, we gripping the sheets
Scratching yo back, and you pulling on me
Boy I love when you go in deep bae
I love when you go in deep bae
I like it slow
But you already, know
You like it slow, boy you know I know

Touching on yo body
And you kissing all on mine
See I can show you something
If you in for the night
Boy my bodies calling
And ya bodies calling mine
We can do it all night

Gonna make you feel me
Feel me, you feel me
Yeah gonna make you feel me
Feel me, you feel me
Gonna make you feel me
Gonna make you feel me
We can do it all night

Who woulda thought?
Who woulda known?
That four years ago
We would have this going on
And now you got me
Right where you want
Just close the door
And let's make history up in this room

Baby you know how we go
Baby go deep make me feel every stroke
You know I love it when you in control
By the way that you breathing
The way that you moan
Know that I'm doing
Baby yo body touching on me like this
I go down
And love me like it was our first time

Touching on yo body
And you kissing all on mine
See I can show you something
If you in for the night
Boy my bodies calling
And ya bodies calling mine
We can do it all night

Gonna make you feel me
Feel me, you feel me
Yeah gonna make you feel me
Feel me, you feel me
Gonna make you feel me
Gonna make you feel me
We can do it all night

Baby we can do it
Til the sun comes up
Tonight I won't hold back
I'll give you all my love
Do yo body
Like it's never been done baby
Please you in more ways than one

Baby we can do it
Til the sun comes up
Tonight I won't hold back
I'll give you all my love
Do yo body
Like it's never been done baby
Please you in more ways than one

Touching on yo body
And you kissing all on mine
See I can show you something
If you in for the night
Boy my bodies calling
And ya bodies calling mine
We can do it all night

Gonna make you feel me
Feel me, you feel me
Yeah gonna make you feel me
Feel me, you feel me
Gonna make you feel me
Gonna make you feel me
We can do it all night
