

# Make Love

Ann Marie

Uh

Touching yo body, you kissing on mine  
Gripping & grabbing, caressing my spine  
Pulling & tugging my clothes from behind  
I know this what you want by the look in yo eyes  
Tonight let's express how we feel  
In other ways & words, Ima show that it's real  
And we ain't gotta rush, we can take our time, so let's press rewind  
When you walk in rose petals on the floor, boy I know what you used to, but  
Ima give you more  
I got the mood set, I got the candles lit, & in the background you can here  
the 90s hits  
Now there's a meeting in my bedroom  
We can knock the boots  
Who can love you like I love you? Touch you like I do?  
Nobody  
Boy your body, all over my body  
You're so anxious  
Had you waiting, just to see what's in these jeans  
Boy tonight it really seems like you're ready  
We can do it nice and slow  
I'm gonna give you what you been feenin' for

Let's make love (so what you wanna do?)
