

Solid Foundation

Ann Peebles

I'm so tired of bouncin' around
In an empty wagon
I need something soft to comfort me
When I'm fallin' down

I fell in love with a guy like you
Because of love, I'm telling you

That I need love (I need love)
Baby, I need love (I need love)
Baby, I need love
I got to build on a solid foundation

You can fill me up with love
Until my heart is runnin' over
You can make a place, castaway
Till love is gone forever and ever and ever

Yes, comfort me and I'll let you see
What you're getting
It's no invitation, just inspiration

If you will hear every word I say
Then baby love will be your pay
Show me your bill, it's alright
Show me your bill, oh baby
Show me your bill
I'll love on a solid foundation (solid foundation)

It's alright (solid foundation)
We gonna build it babe (solid foundation)
I just don't need nobody else around (solid foundation)
Baby, yeah yeah (solid foundation)
