

Kings & Queens

Anna Abreu

Hey, hey, hey
All those kings and queens
They made it, they made it.
Swam against the stream,
Could take it and fight it,
I made it!
And all the tears I've cried
One day will be worth it!
I know I've lost my pride
With you by my side.

Chorus:

Gonna fight till my feet don't carry me out the hurricane
Gonna scream from the top of my lungs,
Make people know our names
And I know, I'm never giving up on dreams
One day we'll be kings and queens!
We can dance around the earthquakes
And laugh along the barricades
I know, I'll never gonna give up on the dreams
One day we'll be kings and queens!

When I can't get up,
You'll lift me, you'll raise me!
Together we can break these walls
Together we can, together we will!

Chorus:

Gonna fight till my feet don't carry me out the hurricane
Gonna scream from the top of my lungs,
Make people know our names
And I know, I'm never giving up on dreams
One day we'll be kings and queens!
We can dance around the earthquakes
And laugh along the barricades
I know, I'll never gonna give up on the dreams
One day we'll be kings and queens!

The queen... my big screen
Motion ready, went supreme
Their mood rings says two things
They're butt hurt and clueless, oh!
True protect me, magnificent tries
The truth is in the light.
Oh, so we get a leak shit,
Hook you up right into the love.
King's size like King Kong,
We build up and stay up
In the meantime we still rise
Layers to this cape, bro!
Super Mario barrel hop,
Stream fast till your level up.
No distressing my misses peach
I play raps, I play for keeps!

Chorus:

Gonna fight till my feet don't carry me out the hurricane

Gonna scream from the top of my lungs,
Make people know our names
And I know, I'm never giving up on dreams
One days we'll be kings and queens!
We can dance around the earthquakes
And laugh along the barricades
I know, I'll never gonna give up on the dreams
One day we'll be kings and queens!
