

Angel

Anna Blue

You're like a light within the dark
Just like an angel (angel, yea)
You're breathing life into my heart
Just like an angel (angel, yea)

And you lead me through the darkest time
Gonna leave this world behind

Angel
Take me to a better place, where I see those brighter days
Angel
Let's seize the day and break away
My angel

You raise me up when I am down
Just like an angel (angel, yea)
I feel the love when you're around
Just like an angel (angel, yea)

And you lead me through the darkest time
Gonna leave this world behind

Angel
Take me to a better place, where I see those brighter days
Angel
Let's seize the day and break away
My angel

And when I cry you're always there to dry my tears
A single word from you can take away my fears
I hang onto you, baby, just you and I
You gotta spread your wings and fly

Angel
Take me to a better place, where I see those brighter days
Angel
Let's seize the day and break away
My angel
My angel
Angel
