

Burning Down

Anna Calvi

I'm falling over
In the night of a burning heart
This wonderful silence
And I want to sever it over and over

Cause I'm burning down
I'm burning down
I'm burning down, I'm so ablaze
I'm burning down

When it's late
A wonderful, wonderful late
I'm flying so effortlessly
And over and over my wait is desire it seems to sew more light
I feel like I wanted to know that I've been here before
I feel so... explain what it means

Cause I'm burning down
It's not easy to be alone
It's not easy to be alone
So I cry and cry

I'm burning down
I'm burning down

Dreams that I have done
Things that I've given life to
It's not easier to face everything that I have faced

And so I shed this turning light with all my lives I feel that
slowly I'll be saved

I'm slowly terrified about what I might find
But I want destiny and everything I've fought for

Cause I'm burning down...
