

# Get Me

Anna Clendening

Do you think about me every night  
When you turn out all the lights  
TV on so you don't have to sleep alone  
Do ya think back on all our fights  
Still convinced I'm out my mind  
Or did ya get drunk and just pick up the phone?

I got you tattooed on my skin  
To remind myself that I'm better than this, oh  
Did you think you'd show up and I'd let you in?

You didn't get me then  
So you don't get me now  
You don't get me now  
I didn't understand  
How you could walk out  
But I do now  
I do now

Now I'm better, better than I ever was  
Now I'm better, better than I ever was  
Now I'm better, better than I ever was

You used to hate when I got sad  
Said it always made you feel bad  
Never got that it wasn't about you at all (about you at all)  
Used to think that we were so good sometimes  
Thought that maybe if I gave you your time  
You'd come around, now you're comin' around, babe

I got you tattooed on my skin  
To remind myself that I'm better than this, oh  
Did you think you'd show up and I'd let you in?

You didn't get me then  
So you don't get me now  
You don't get me now  
I didn't understand (didn't understand)  
How you could walk out (how you could walk out)  
But I do now (I do now)  
I do now

Now I'm better, better than I ever was  
Now I'm better, better than I ever was  
Now I'm better, better than I ever was  
I do now  
Now I'm better, better than I ever was  
Now I'm better, better than I ever was  
Now I'm better, better than I ever was

I didn't understand  
How you could walk out  
But I'm glad you did
