Already Fallin'

Anna Graceman

When you think you might have everything you ever wanted
And you think you might be free but everything just got started
How… are you supposed to fix that?
Oh, I hate laying' around doing nothing just chit chat, I don't like that

I know it's hard learning how to fly when you're already fallin g
Oh, hear me callin?
Here you are as you stand and you're holdin' my precious hand
Whatcha doing are you stallin'?
Looky here, we're free falling
Free falling, free falling, free falling, my darlin'

Thought that we were number one but now it seems we're over
I used to think you were so lucky like a four leaf clover
Oh please tell me what happened to me and you
Now I'm stranded but baby who knew

It'd been so hard learning how to fly when you're already falli ng
Oh, hear me callin?
Here you are as you stand and you're holdin' my precious hand
Whatcha doing are you stallin'?
Looky here, we're free falling
Free falling, free falling, free falling, my darlin'

But there ain't no one to catch me when I fall
Who knew something so bad started off so small
Please save me sweet baby as I float away into nothingness
I thought everything was easy but now I confess

Cause It ain't so easy learning how to fly when you're already falling
Oh, hear me callin?
Here you are as you stand and you're holdin' my precious hand
Whatcha doing are you stallin'?
Looky here, free falling
Free falling, free falling, free falling, my darlin'
