

Broke

Anna Graceman

You know I've been crying, I've been crying diamonds
And it's rare to find me here like this
On my hands and knees, just picking up the pieces
I still can't believe I'd break like this

That love we saved up
Wonder how it all ran out
We were so high up
It's gonna be a long way down

There's no easy way to fix this
'Cause only you can make me whole
Loving you is so expensive
'Cause you took everything and you left me broke
You left me broke, when
You left me broken
You left me broke

You know I've been trying, I've been trying to buy in
To the idea that I can stitch this up
This heart of gold that's bleeding, superglue can't heal it
Every smile is temporary and I'm barely hanging on

There's no easy way to fix this
'Cause only you can make me whole
Loving you is so expensive
'Cause you took everything and you left me broke
You left me broke, when
You left me broken
You left me broke

We were so high up
It's gonna be a long way down

There's no easy way to fix this
'Cause only you can make me whole
Loving you is so expensive
'Cause you took everything and you left me broke
You left me broke, when
You left me broken
You left me broke
You left me broke, when
You left me broken
You left me broke
