

# Diamonds Never Die

Anna Graceman

Stars they fall for us  
Heaven pulling out from up above  
Ever more is never long enough  
For something truly timeless

Wrapped in this bliss  
Living for a moment just like this  
Knowing that immortal really is  
Forever at its finest

Diamonds never die  
Diamonds never die

Nothing can compare  
This is undeniable and rare  
In the name of love they stop and stare  
The brilliance is blinding

Sun and the moon, do what they do  
But they'll never be, me and you  
Infinity has just begun  
We'll live on and on

Diamonds never die  
Diamonds never die  
Diamonds never die  
Diamonds never die
