

Everything

Anna Graceman

You can have anything you want
Just reach out for it, and take what's yours
I can see you don't want to watch
[?] at something they ain't seen before

Give it all that you got
You can do anything
Give it all that you got
Give it everything, everything
Give it all that you got
You just gotta believe
Give it all that you got
Give it everything, everything

Oh
Yeah
Oh
Give it everything, everything

Everyday rising with the sun
Your road to glory's only just begun
One, two, three, look how far you've come
And step by step, you keep moving on up

Give it all that you got
You can do anything
Give it all that you got
Give it everything, everything
Give it all that you got
You just gotta believe
Give it all that you got
Give it everything, everything
(Everything)

Oh
Yeah
Oh
Give it everything, everything

Oh
Yeah
Oh
Give it everything, everything

Give it all that you got
You can do anything
Give it all that you got
Give it everything, everything
(Everything)
