

# Get Ready For The Future

Anna Graceman

Tick tock, there's no time to waste, no time to waste  
Won't stop I don't hesitate, I don't hesitate  
I got fire burning in my eyes yeah, the future's looking bright  
Tick tock, there's no time to waste, no time to waste

Let's make it better, better  
Better than it ever was  
Let's make it better, better  
Hey yeah

Get ready for the future  
Making moves past yesterday  
Get ready for the future  
Won't let nothing in our way  
And I'ma take you places you ain't never seen  
Ain't never seen before  
Get ready for the future  
Just say goodbye to yesterday

Oh, get ready for the future  
Oh, get ready for the future

Each step only going up, only going up  
Right, left, keep on marching on, keep on marching strong  
My heart beats just like a drum for better days to come  
Each step only going up, only going up, from here

Let's make it better, better  
Better than it ever was  
Let's make it better, better  
Hey yeah

Get ready for the future  
Making moves past yesterday  
Get ready for the future  
Won't let nothing in our way  
And I'ma take you places you ain't never seen  
Ain't never seen before  
Get ready for the future  
Just say goodbye to yesterday

Oh, get ready for the future  
Oh, get ready for the future

Hey yeah

Get ready for the future  
Making moves past yesterday  
Get ready for the future  
Won't let nothing in our way  
And I'ma take you places you ain't never seen  
Ain't never seen before  
Get ready for the future  
Just say goodbye to yesterday

Oh, get ready for the future  
Oh, get ready for the future

Oh, get ready for the future  
Oh, get ready for the future
