

# Got The World

Anna Graceman

Didn't realize I was in the dark  
Though your light shined through  
Everybody's reaching for the stars  
But I'm reaching for you

Ooh ooh ooh  
Things without the matter seem so small  
Ooh ooh ooh  
Finally recognize I have it all

I got the world right here  
When you're in my arms  
Lost in your atmosphere  
Wherever you are  
And everyday that you're here with me  
I got everything 'cause  
I got the world right here  
I got the world right here

Don't wanna let a moment pass us by  
Wanna be consumed  
I'm not afraid of losing track of time  
But I'm steady losing you

Ooh ooh ooh  
Things without the matter seem so small  
Ooh ooh ooh  
Finally recognize I have it all

I got the world right here  
When you're in my arms  
Lost in your atmosphere  
Wherever you are  
And everyday that you're here with me  
I got everything 'cause  
I got the world right here  
I got the world right here

I got the world right here  
I got the world right here  
I got the world right here  
I got the world right here

I got the world right here  
Right here
