

High Places

Anna Graceman

I've always had a connection
With those twinkling lights
And to the first one that I see
I'll wish with all my might
I've wished the same wish
And it hasn't come true
But I look out of my window
And I have a great view
Of my friends, in high places
They've all got names but no faces
And they can't tell me I've gone too far
If they did look who's talkin' cause they're all stars...

In high places
When the thunder starts growling
And the wind starts to scream
And the clouds they start coming
The sky is crying it seems
I see nothing but gray
I hope it wont last
So I ask the world loudly
"Please let this storm pass!"

My friends, in high places
They've all got names but no faces
And they can't tell me I've gone too far
If they did look who's talkin' cause they're all stars...
In high places

There'll come a time when I'll meet you again
And we'll be closer than we've ever been
Hearts might break and tears may fall
But I'll answer to your comforting call
Oh my friends, in high places
They've all got names but no faces
And they can't tell me I've gone too far
If they did look who's talkin' cause they're all stars...
In high, high, high places
