

# Long Way Down

Anna Graceman

It's a long way down  
It's a long way down  
The higher that you fly, the more you'll find  
It's a long way down

It's a long way down  
It's a long way down  
There's a fall from grace with just one taste  
It's a long way down

It's got me here on my knees  
I'm diving too deep  
With my demons in the shadows  
Been hanging out by a thread  
Dancing on the edge  
With the devil only I know

Oh  
Scared of what lies below  
Oh  
But I gotta let go

It's a long way down  
It's a long way down  
Looking through the black, it's smiling back  
It's a long way down

It's a long way down  
Gonna hit the ground  
Only heaven knows how far it goes  
It's a long way down

It's got me here on my knees  
I'm diving too deep  
With my demons in the shadows  
Been hanging out by a thread  
Dancing on the edge  
With the devil only I know

Oh  
Scared of what lies below  
Oh  
But I gotta let go

It's a long way down  
It's a long way down  
Can't turn around, can't go back now  
It's a long way down
