

Made You Look

Anna Graceman

Stand in the limelight, dance on a high wire
You better get your shades
Too much to mention all of the attention
Na, na, for goodness sake

Seeing it with your own eyes
Gotcha turning your head like
Take it in for the first time
Ah, ah, ah

Made you look
Made you look
Okay

Fresh as it gets, take a bite outta this
And you'll never forget the taste
Can't get enough or bottle it up
Oh you're not gonna recreate this

Seeing it with your own eyes
Gotcha turning your head like
Take it in for the first time
Ah, ah, ah

Made you look
Made you look

Ain't seen nothing, ain't seen nothing
Ain't seen nothing like this
Got that something, got that something
That you can't resist
Ain't seen nothing, ain't seen nothing
Ain't seen nothing like this
Got that something, got that something
That you can't resist, yeah

Made you look
Yeah, I made you look
Yeah, okay

Ain't seen nothing, ain't seen nothing
Ain't seen nothing like this
Got that something, got that something
That you can't resist
Ain't seen nothing, ain't seen nothing
Ain't seen nothing like this
Got that something, got that something
That you can't resist

Made you look
