

# Pocket Change

Anna Graceman

Heartbroken at words spoken  
I'm choking, I can't break  
I wandered for awhile until they found me

They said a penny for a wish  
They swore that it was true  
That if I ever made a wish  
It would come true

So I threw a dime in the wishing well for good measure  
Boy I was a fool to think that, that would make things better  
Pocket change can't make my wishes come true  
So I'm stuck here crying over you  
Baby I was told to wait and be patient  
I've spent so much time, I've run out, don't know where it went  
Pocket change won't make you change your mind  
But I'm still wishing and throwing in dimes

Torn up, scattered, our world shattered  
So much chatter, I can't hear  
All I want is to live my life without any fear  
Pick up pieces, promise, keep them  
And believe in, the truth  
Baby put all of your faith in something bigger than you

They said a penny for a wish  
They swore that it was true  
That if I ever made a wish  
It would come true

So I threw a dime in the wishing well for good measure

Boy I was a fool to think that, that would make things better  
Pocket change can't make my wishes come true  
But I hope others are wishing too  
Baby I was told to wait and be patient  
I've spent so much time, I've run out, don't know where it went  
Pocket change can fix this world with some time  
So I'm still wishing and throwing in dimes

Coins in my pocket  
Nothing in my wallet  
I'd be fine with nothing else  
But it's human for me to want it  
I'm so tired of the same  
All I want is a little change

And so I throw a dime in the wishing well for good measure  
Maybe I'm a fool to think that, that will make things better  
But pocket change can make my wishes come true  
I'm hoping others are wishing too  
Cause baby I was told to wait and be patient  
I've spent so much time, I've run out, don't know where it went  
Pocket change can fix this world with some time  
So I'm still wishing and throwing in dimes
