

# Sunshine in a Bottle

Anna Graceman

Took a while for the clouds to go away  
But now there's no more rain falling down, down, down  
Took a year or two for me to appreciate  
All of the simple things, but I get it now

Got a glass half-full and I'm raising it  
To the future oh and I'm hoping that  
There are golden days like this ahead  
Got a glass half-full and I'll savor it  
I want it to last more than a minute  
I'll be holding on, to this feeling

Gonna keep this sunshine in a bottle  
So I can save a little for tomorrow, oh  
'Cause times like these they taste so sweet  
Gonna keep this sunshine in a bottle  
So I can take a sip of it tomorrow, oh  
'Cause I got everything I need

With a little sunshine, sunshine  
Sunshine, sunshine in a bottle  
Sunshine, sun shining all on me

I'm convinced these moments change everything  
Call it a remedy, but I feel brand new  
And these bluer skies got me finally breathing  
I'm starting to see it from a better view

Gonna keep this sunshine in a bottle  
So I can save a little for tomorrow, oh  
'Cause times like these they taste so sweet  
Gonna keep this sunshine in a bottle  
So I can take a sip of it tomorrow, oh  
'Cause I got everything I need

With a little sunshine, sunshine  
Sunshine, sunshine in a bottle  
Sunshine, sun shining all on me  
Got a little sunshine, sunshine  
Sunshine, sunshine in a bottle  
Sunshine, sun shining all on me

Oh whoa, oh whoa  
Whoa, whoa  
Oh whoa, oh whoa  
Whoa, whoa

Gonna keep this sunshine in a bottle  
So I can save a little for tomorrow, oh  
'Cause times like these they taste so sweet  
Gonna keep this sunshine in a bottle  
So I can take a sip of it tomorrow, oh  
'Cause I got everything I need

With a little sunshine, sunshine  
Sunshine, sunshine in a bottle  
Sunshine, sun shining all on me

Got a little sunshine, sunshine  
Sunshine, sunshine in a bottle  
Sunshine, sun shining all on me

Oh whoa, oh whoa  
Whoa, whoa  
Oh whoa, oh whoa  
Whoa, whoa
